TO WHOM IT MAY CONCERN:

It gives me great pleasure to write a letter of recommendation for Mr. Carlton Keyes. He was employed by Trend from 1974 to 1977 and again starting June of this year until the present time.

Mr. Keyes has filled several positions with us. He has worked in our layout department, done public research and worked in an editorial capacity proofing copy for several columns. We have found him to be extremely versatile and always ready to learn new things. Both the editor and I have found him accurate, proficient and professional.

We of Trend have always been proud of our association with Carlton. We wish him the very best in his future and know that he will give his loyalty and dedication to anything he attempts.

Cordially,

Carl J. Brinson, President
